SUBJECT : Review of the Procedures and Standards within the Intelligence Community for the Control of Sanitization and Downgrading of Sensitive Intelligence

1. The attached memorandum to the United States Intelligence Board (USIB) from the Security Committee, in response to a USIB directive in May 1963 (references a. and b.), is circulated herewith for Board consideration. The memorandum requests Board approval of the recommendations and definitions in paragraph 9. on pages 4, 5, 6 and 7.

2. The attachment to reference c. is the Security Committee's preliminary report on this subject, submitted in January 1964, on which the Board deferred action pending the completion of the COMOR review of the procedures for sanitization and downgrading of TALENT and TALENT/KEYHOLE materials (reference d.). Although paragraph 3 of reference c. contemplated subsequent USIB action on USIB-D-41.12/9, no Board action is now required since this directive has been superseded by the attached memorandum.

3. This matter will be placed on the agenda for USIB consideration at an early date.
